

The American Lebanese Coalition (ALC) is a coalition of Lebanese-American groups devoted to promoting and establishing strong relations between the United States of America and the Republic of Lebanon.

The ALC calls for the strict respect of Lebanon's sovereignty, territorial integrity and political independence. An initial main objective of the ALC is to enlist the support of the United States to maintain a free, independent and sovereign Lebanon. The ALC endorses peace and free trade in the Middle East.

The ALC supports and promotes freedom and democracy in the Middle East in general and in Lebanon in particular, as well as constitutionally enshrined rights and values guaranteeing human rights, freedom of speech, belief and assembly, cultural and religious pluralism, independent judiciary, and free market economy.

The ALC will endeavor:

- To unite and rally Lebanese-American groups (and individuals) in support of ALC's mission and objectives.
- To work closely with the government of United States to support and protect Lebanon's full sovereignty, political independence and territorial integrity. Striving to promote and safeguard American interests in the Middle East, ALC believes that a free and democratic Lebanon serves the national interest of the United States.
- To constantly raise public awareness of ALC's mission through the media, publications, and special educational programs.
- To actively participate in the American political process, lobby elected officials and support those officials whose positions and policymaking are in harmony with those of the ALC.
